

Sponsored Events

At Fundy Software, we proudly promote the diversity of our communities by supporting industry events that fairly reflect them. We choose to only consider sponsoring those with equal representation of gender, race, economic background, and sexual identity.

Upholding that everyone's stories deserve to be preserved in print for future generations, we'll also only sponsor events:

- Whose speakers represent the photography community and the greater community as a whole
- Whose speakers promote photo albums and wall art
- That largely educate photographers on the importance of print-product sales in sustaining long-term business
- With a significant number of its speakers being Fundy Software ambassadors or users, as they're leaders in both photography and the business of photography

By taking this stance and standing strong in our principles, Fundy Software hopes to enrich upcoming events while saving moments for years to come.
